

REMARKS

In the Office Action mailed from the Patent Office on July 18, 2002, the Examiner required election of one of the following groups:

Group I: Claims 1-2, and 23-29; and

Group II: Claims 3-22.

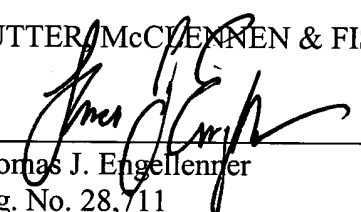

Applicants elect the Group II invention (Claims 3-22 drawn to methods of therapy) and further elect species of Alzheimer's Disease, claim 10.

In addition, Applicants request that the restriction requirements be reconsidered and withdrawn in their entirety. It appears that a single search should suffice for examination of all aspects of this invention.

In any event, full examination of claims 3-22 is requested in light of Applicants' election.

Respectfully submitted,

NUTTER/McCLENNEN & FISH, LLP

Thomas J. Engellenner
